08 Pitch (worldwide)

Restructuring has gone global and court-driven: UK Part 26A plans for Chinese developers, Hong Kong petitions adjourned to 2027, Nordic written procedures, German SchVG votes, French accelerated sauvegardes, Singapore moratoria, Japanese civil rehabilitations. The incumbents sell news; nobody sells **the calendar and the control map** — who blocks, who decides, and on what date. TRIAGE World does, built from bulk public registers (5.7m UK companies, 58,810 French notices) and primary filings, with every claim linked and graded. Cheaper than one Debtwire seat, and focused on the date that moves the price. (Positioning is JUDGEMENT.)

Eight email drafts, each headed *DO NOT SEND - DRAFT*, are saved to `/workspace/triage_os_data/world/email_drafts_DO_NOT_SEND.txt`. Nothing has been sent.

09 Gaps and what was not done

- London Gazette JSON/feed returned HTTP 202 with empty body (WAF) — UK notices come from Companies House status instead.
- Companies House charge detail needs an API key — only counts of outstanding charges used.
- Germany Insolvenzbekanntmachungen/Bundesanzeiger: no bulk access; SchVG cases from issuer IR pages only.
- Spain BOE concursos and Canada OSB CCAA list timed out/503 from the box; Spain/Canada rows use secondary press (labelled).
- Japan EDINET needs an API key; Singapore eLitigation not accessible; ESMA/EDW CMBS repositories need registration; EBA transparency exercise discontinued.
- French enrichment ran on ≈400 of 5,552 sauvegarde/redressement openings; liquidations not enriched; finance years can be stale.
- Zucchi (IT) primary PDF did not download; Gefion vote (7 Oct) dropped as its catalyst passed with no result found.
- Octus EMEA, Debtwire Asia and Reorg APAC prices not public; 9fin/Octus figures are secondary.
- Buyers list is not verified per firm; backer cheque sizes are judgement. No PACER; no logins; nothing sent.

11 Appendix B. Method

Situations were selected from bulk feeds (Companies House snapshot, BODACC export, HKEX title search, TDB flash, ASX announcements, Stamdata/Nordic Trustee) and press triage, then kept only if a primary page fetched on 22–23 Oct 2026 contained the exact token recorded in the log. Secondary-only items are labelled VERIFIED-SECONDARY. Chokepoints reflect the statutory voting or court mechanics of each procedure (Part 26A cross-class cram-down; HK/SG scheme majorities: majority in number and 75% in value; SchVG 75%; Nordic written procedure; French affected-party classes since 2021 reform; Indian CoC 66%). Ranking and fit are JUDGEMENT. Individuals are excluded by design.
