01 Summary

- **25 live non-US situations**: 21 confirmed from primary sources fetched on 23 Oct 2026 (Asia/Singapore time), 4 labelled secondary-only, 0 unverified. Every fact in the sourcing appendix has its URL, fetch time and exact quote.
- **Killed:** LVGEM, China SCE and Toys"R"Us Japan. **Kept:** Booster, because the debate's kill is contradicted by the primary notice. **Added:** Nacon, Grupo Antolin (secondary only) and Stark Group (pre-filing, secondary only).
- **Prices:** 11 situations have a public price. Each is labelled as a trade or a stale trade. A recovery-vs-price gap is computed only where both exist and the price is current (1 cases).
- **Commercial anchor:** a Debtwire subscription at **£39,606 per year**. This is £118,818.24 over 26 Jun 2023–25 Jun 2026, from UK Contracts Finder; it includes VAT and an inflation contingency.
- **No fundraising yet.** Milestones before raising: 3–5 design partners, 2–3 paid pilots at £5–10k, about £150k ARR in letters of intent, and one backtest that dated a catalyst correctly before the market.

Fixes

- Thames: catalyst moved from 'March 2027' to 29 Oct 2026 (16th consent vote); added 66.66% RP2 threshold, £2.4bn upsize to £5.4bn, runway to end-2026/early-2027, SPP Extension ('RP 1.5'); Ofwat/government named as controlling.
- Bigben: chokepoint changed to the shareholders' class; backstop group ≈93.4%; added Bigben Connected sale (€35m cash + ≈€13m vendor loan to Modelabs), capital structure, AMF URD D.26-0631, BODACC notice.

- BayWa: unverified 30 Nov date dropped; 16 Oct results PDF sourced (quorate, not adopted).

10 Remaining gaps

- Thames Class B ISINs and marks: no public exchange page found → gap abstains.
- Bigben: court judgment text, BALO n°118 text and the AMF BDIF entry were not fetched (the URD number comes from the company release).
- Grupo Antolin: antolin.com blocked from the box; status after 16 Oct is unconfirmed (secondary only).
- Stark Group: Fitch page did not render; the Octus quote dates from March 2026. Treat as a watch item, not a verified pre-filing.
- mm2 Asia: debt size not in a primary document fetched today.
- Yindeng primary NPL data not reached; the end date of China's NPL pilot is not confirmed. The BoE Truran speech was not found.
- Equity prices come from a public chart feed, not the exchange pages; bond prices are thin Frankfurt trades.
- Urbas, SVOGL, Antolin and Stark are secondary-only and kept only because they are labelled.
